

Unified data is the best medicine

RELTIO

...but fragmented data sources are spilled
across clinical and commercial systems

Siloed data:

- Diminishes the customer experience
- Creates compliance risk
- Leads to product launch delays

80% of sales teams using
intelligence report a positive
impact on customer retention¹

\$41.8B paid in compliance
penalties by pharma
companies since 2000²

85% of all clinical trials
experience delays³

Put a cap on complexity

Reltio delivers the single
source of truth to all operations
and analytics

8/10 of the largest pharma
companies use Reltio

Deliver better customer
and patient experience

Easily manage
product data

Improve sales
effectiveness

Simplify
compliance

Over 40 pharmaceutical companies trust Reltio to manage the
data that matters most to their business

We believe data should fuel your success, not hold you back. Our first-of-its-kind, master data management SaaS platform unifies and cleanses multi-source, complex core data into a single source of trusted information—in real-time. Agile to fit any company's needs and flexes at will. Reltio Connected Data Platform helps you act on your data with confidence. And maximize your impact every day.
